Customer Reviews

Can be somewhat clumsy from a format perspective, but being able to locate specific data (by searching for words and phrases) is great. And, having removable highlighting is a plus. I have been using electronic texts for a while and have found them useful. But, have had to buy computer glasses due to eye strain from looking at computer screens for so many hours. Nice option, though. And, a good value.

I have other law books like better. This is a small book, but it is crammed with tiny print.....not sure that is my version of "in a nutshell".

Must have for Educational Law students .
