The printing is great! But the online music download/library is a MESS. Tracks aren't labeled or put in any order; you have to download the whole bunch --individually-- and then figure out what everything is, and which order it needs to go in. Since there's no more CD in your hand, Hal Leonard needs to provide a Track Listing or at least put the download files in order. I would have given this series 5 stars but the awful download site drags it down to 3 stars.

This is a very good book for a beginning singer. The repertory is standard and the language lessons and accompaniments are most helpful.

Nice to have information that is helpful. Thank you.

Great Collection of Vocal Literature!
