My daughter has taken piano for a couple of years and I got this book to help motivate her to practice. It really has done the trick. The songs are a little bit tough for her, but in a good way that is really inspiring her to keep practicing. She works on her regular piano book and then uses this as a fun reward at the end of her lesson. I have to admit, I've been using this book too. It's so much fun!

This book has a great variety of known Disney songs, but is definitely difficult for someone learning to read music.

I love Disney songs! Walt Disney was a great man and this book covers some of the classics. Definitely fun to own for yourself and to teach your young singers.

This is turning out to be a real favorite of my 8 yr old granddaughter. I thought the songs would be

too hard for her to play but she is tackling and learning them. Some are easier than others but she is loving it.

I love this series of piano books. Yes, there are page turns, but real piano music is like that. These pieces are easy, yet sound correct. Highly recommend!

Bought this for my niece. Kids love Disney music and if they like the music and are familiar with the music, they will be more likely to practice.

My kid's music teacher recommended this book. My kid (8 years old) likes the songs, and it helps her keep motivated to keep improving her skills.
