The Black Hebrews And The Black Christ

Synopsis

[Dedicated to the One and only God from whom all blessings flow]. This book tells it all “ from the creation of Adam, to Black Abraham, Moses, Jacob, the invasion of the homelands of the Black Hebrew Israelites/Jews by the Assyrians, Neo-Babylonians, Persians, Greeks, Romans, Muslims and others; the brutalization of the Black Jews and their near-decimation, as well as the story of the Khazars, who are today considered to be the real Jews. Mention is also made of the historical Black Jesus. This book is illustrated with ancient images of Biblical characters.

Customer Reviews

Some may look at the title of this book and assume it's Afro-centric, or propaganda. But the author did not talk of his own initiative, instead, he showed proof using scripture, he referenced other books by other people, he shared pictures, paintings, etc., to prove his points. Another reason why I enjoyed this book, it's NOT dogging or putting down other races or cultures as some books tend to do. There are, and were many people on this earth and we (everyone regardless of color) ALL have a history, both good and bad. I want to thank Aylmer Von Fleischer for sharing the good history of Blacks. D. THOMAS

What I can appreciate the most about this book are the references and the visuals. This book is cloaked with a lot of integrity, and if the reader permits themselves to be absorbed in the information, it enflames them to advance personal research. I would recommend this book to someone who is curious of the validity of this claim. What is astonishing, as revealed in this literature, is that Americans are more obscured to these hints of bold blackness in Hebrew heritage in comparison to those whom reside in Africa and Europe; primarily because most of the information has been preserved there. You can read this book in a day, if time permits, or you can take your time, digest each claim, and research other sources to align them; which of course the book already supplies. If you have seen the "Hidden Colors" documentary series, then what you will read and observe in here is a confirmation of what you already know. This didn't raise any suspicion or skepticism at all, which is why I deemed it to be boiling with integrity. The best way to verify this would be to travel to the books recommended citadels and such that hold these illustrious and ancient depictions of Jesus and the black Hebrews. Ultimately, it's an introduction to a penetrating truth, and it is endowed with logical procession, especially to anyone who is pre-equipped with knowledge of Christianity. Proceed with an open mind, as the most proficient scholar and scientific mind would

I would recommend this book to any black person confused about Jewish heritage and why/how we lost it. This book is excellent in presenting the long, complex truths into a convincing, easily understandable saga. It's a must-read. In fact, you can't put it down until you're finished.

I bought the book...well I bought like 2/5th of the book via Kindle. You don't get the FULL book all at once. You have to keep buying portions of it with the Kindle version .99 at a time. Of course this sucks. I'd rather just buy the complete book and be done. That said, what I was able to read of the book was interesting. I moved on to something else because of the dumb parting out of the book.

Enjoyed reading this book. I was interesting by the title and the book delivered, also had something to back up its claims. I had taken a course online concerning this subject matter but had no reference materials. Glad that offered this book to the public.

some of these facts I knew, but others...well they kind of make it seem a bit sketchy, if I can use that term. I enjoyed reading it just the same and will read it again, as well as use it for reference. great

book.

Enlightening reading for someone who was raised a Christian. It dispells everything I was ever taught. I can only hope that, for the sake of African Americans, the contents of this book are true.

I am one that is seeking the truth concerning my savior so a lot of ebooks concerning this subject I will own and read and get the truth of so many lies that I am finding out and how so many things have been kept from we as a people.(African Americans). so thanks to the seller of this book I will research and find out things that I need to know so I can educate my family. as the bible says the truth will make you free and this is my goal.
