Unmistakably Black: Sculpture And Paintings From The World's First Civilisation (Egypt Only)

Synopsis

Sculpture and paintings of the ancient Egyptians that are rarely seen in textbooks. They are shown with a no-nonsense commentary from anthro-photo-journalist Anu M'Bantu. From the world's first civilisation and they are unmistakably Black!

Customer Reviews

Although some of the captions are a tad zealous, it makes it's point perfectly clear with pictures. I appreciate it for bringing these pictures to light and recommend it to anyone not afraid to know more of the whole story, not just the snippets allowed into accepted tradition.

This Book was not long enough. It was interesting and made me seek out other books to read. Very interesting and quite compelling.

This ebook was interesting as well as informative. The information had good examples and seemingly excellent resources. Initially, the similar books, which took up the last part of the book, were an annoyance (to me), but, I realized they would help to support the fact (s) of this publication. Peace.

I ran a construction company. I named it Meroe after the ancient capital city of the Black Empire south of Egypt. The Nubians we're obviously Black but no one wanted to admit that Egyptian Civilization originated in that part of Africa. King Tut's picture was on the back of a truck advertising the exhibit. At first glance I thought it was Tony Dorsett the football player. That did it for me. Our past was being hidden from us for racist reasons. Example, it took me a long time to figure out how Vasco Degama was the first "man" to discover the Pacific ocean. I could not figure out how the Native Americans of the Pacific Northwest never see the dam thing. They did but I guess they weren't considered "men". Tragic education for children of none whites.

The evidence speaks for itself! Even respected Greek Historians like Herodotus have attested to that fact! Its only Racists who try to prove the opposite despite such overwhelming evidence. Even Amun, a chief god in Chemia was dark brown, what is reffered to as Black today. I urge all serious Africans in search of truth to read this short book. Its awesome!

I am amazing as to all of the prove there is in ancient history that has been whitewash but more than that why it has been allow in countries that is is so overwhelming obvious! Why deny your own heritage? These countries are in the continent of Africa! This was a great visual of the proof if one is still needed!

Words can only provide only a fraction of the Truth. The visual brings your history home to roost. Theses ancestors look like me! Generous lips and wide noses. It is refreshing to know that your legacy didn't start with slavery but from the cradle of life.

This book was an index to her other books. There was nothing to gain by acquiring this book except as a link .
