Customer Reviews

The title named by seller indicates that it would be all 21 hungarian dances that I was buying, as Schirmer puts out a current book that is 1-21. However, my purchase from this seller is only the first 10. Very disappointed.

I love this music, but it's not for the faint of heart (at least if you've been playing for under a year). I keep this in with my other music as something to aspire to, but I suspect I'll be a good deal grayer before I can tackle some of these stretches, leaps, and other finger related acrobatics successfully. It's good to be challenged.

I don't personally didn't buy this book, but is planning to buy it. However, there is absolutely no explanation of what is in the book or the page number. I was looking for Hungarian Dance no. 5 but the thing is that i don't know if it is in the book. I hope there is more clear explanation of what is in the content.

We were lucky to find this book and are very thankful to the friend who told us about it. Large and very practical collection to play and enjoy.
