Frozen In Time: An Epic Story Of Survival And A Modern Quest For Lost Heroes Of World War II (P.S.)

Synopsis

#1 New York Times bestseller! Frozen in Time is a gripping true story of survival, bravery, and honor in the vast Arctic wilderness during World War II, from the author of New York Times bestseller Lost in Shangri-La. On November 5, 1942, a US cargo plane slammed into the Greenland Ice Cap. Four days later, the B-17 assigned to the search-and-rescue mission became lost in a blinding storm and also crashed. Miraculously, all nine men on board survived, and the US military launched a daring rescue operation. But after picking up one man, the Grumman Duck amphibious plane flew into a severe storm and vanished. Frozen in Time tells the story of these crashes and the fate of the survivors, bringing vividly to life their battle to endure 148 days of the brutal Arctic winter, until an expedition headed by famed Arctic explorer Bernt Balchen brought them to safety. Mitchell Zuckoff takes the reader deep into the most hostile environment on earth, through hurricane-force winds, vicious blizzards, and subzero temperatures. Moving forward to today, he recounts the efforts of the Coast Guard and North South Polar Inc. — led by indefatigable dreamer Lou Sapienza — who worked for years to solve the mystery of the Duck's last flight and recover the remains of its crew. A breathtaking blend of mystery and adventure Mitchell Zuckoff's Frozen in Time: An Epic Story of Survival and a Modern Quest for Lost Heroes of World War II is also a poignant reminder of the sacrifices of our military personnel and a tribute to the everyday heroism of the US Coast Guard.

"Frozen in Time" is a story of hell in a frozen wasteland. For the first time the tragedy and heroism of

downed airmen over the frozen wastes of Greenland while ferrying planes and cargo to our Allies in England during World War II is told by Mitchell Zuckoff. This is a fascinating story of how the U.S. Coast Guard also played a vital role in the search and rescue of many of the aircrews. Zuckoff recounts the misfortune of the C-53 Skytrooper Cargo plane lost over Greenland that initiated the air and sea search which resulted in the loss of a B-17 (PN9E). In a rescue attempt for some of the crew of the B-17 a Grumman "Duck" was lost after being launched off the Coast Guard cutter Northland. Zuckoff conveys to the reader the horrendous conditions the crew of the B-17 suffered; from the physical conditions of facing starvation and dealing with frostbite to the mental deprivations derived from isolation upon a frozen wasteland with little chance of rescue. In a way without distracting from the main focus of survival of the air crews, Zuckoff tells the story of a present day team that has set out to retrieve the remains and reveal the truth about what really happened to those lost. This story is told in concurrence with the survival tale. In some ways I found this distracting, but not overly so. Only enough to reduce what I thought was a 5 star book down to 4 stars. A historic note of interest: As well as a way station for aircraft making their way to England, the United States had an early interest in Greenland at the outbreak of hostilities in Europe.
