Customer Reviews

I really like it how its a lot thinner and lighter than the older version. I have to carry lots of books up the hill to classes so i'm thankful for light books. The content is very good, not much different from the newer edition after this one. Very good for people who don't understand law. It lays good basic grounds.

You can't go wrong with this book. Great content, plus if you are having trouble sleeping...open it up. This is a great resource for understanding our legal environment.

The condition of the book is good, though the hardcover is a little broken, the text does not have too many marks and highlights that infect reading. worth the money!

Book was required for school. Very detailed on the legal environment of business and business law. I kept it because, who knows, it might come in handy some day :)

This used book is great. A little hard to read if you are not interested in the subject, but overall a good academic source with a small amount of highlighting.

Great Book, Excellent price, As a Business Law student i would recomend this book to fam and friends, i saved a lot of money. Thanks. Happy Customer.
