# A Life Ruined By Organized Stalking In Canada

## Synopsis

August 28, 2016 Update: The organized stalkers are now vandalizing the offices of doctors that I visit. I visited two different doctors on June 28, 2016 because I was feeling unwell. In the first doctor's office, the patient's chair of the room had some white stuff on it. I tried to brush it off with the back of my hand. Instead of coming off, the weird substance scraped the back of my hand so much that it rubbed the skin off and did not heal until two weeks later. In the second doctor's office, the organized stalkers used a pen to inscribe the insignia found on the messenger bag that I was carrying onto the patient's chair in the doctor's office. I was carrying a messenger bag on that day which was probably left behind by the previous tenant of my apartment several years ago, and it has a very rare and distinct insignia on it. It is definitely not a brand name insignia. The organized stalker who was posing as a patient was in the room before me and had inscribed the insignia of my bag onto the patient's chair with a pen. This looks like a blatant attempt at framing me for vandalizing the patient's chair. If the organized stalkers are willing to commit criminal acts to frame me for things that I have not done, what other criminal acts are they capable of? I suspect that I may have been poisoned by them recently. My symptoms are systemic and are suggestive of poisoning. There are too many details to discuss here so I have added an entirely new chapter to my book. The chapter is titled Medication Tampering. It has two full color photographs. Due to the lack of space available here, I have moved the bulk of the older updates to a newly created appendix at the back of the book.

December 9, 2015 Update: A fake 5 star review filled with disinformation has been posted by the organized stalkers on November 20, 2015 under the username JimmyBlues at the Canada website (.ca). I do not describe any of the things he claims I describe. I do not hold his views nor am I associated with him in any way, shape, or form. The views of JimmyBlues are very radical and extreme. Mine on the other hand are peaceful and I only advocate public exposure of organized stalking. Please read the comment under his review for a detailed analysis of the disinformation campaign that he is running. (At .ca, click on "See the customer review," and then click on "1 comment.")

About the Book: This is a book about an innocent target who has had to endure the torment of organized stalking since the early age of 14. Take a journey with Edward Wong, a pseudonym adopted by the author, as he takes you back in time to 1991 when his nightmare all started. Tag along as he takes you from one Canadian city to another while facing adversity head on. Put yourself in Edward Wong's shoes as he undergoes the trials and tribulations that all targets of organized stalking know too well. Afterwards, learn in detail the tactics of organized stalking and the six Articles of the Universal Declaration of Human Rights produced by the United Nations that the organized stalkers so blatantly disregard. Finally, take a breather and relax as

Edward Wong gives a poignant conclusion and heartfelt advice to his fellow targets of organized stalking. From the Author Himself: I have been a target of organized stalking for over two decades since I was 14, and it is never going to end. I realize that they will continue to employ their underhanded tactics until the day I die, and nothing I do will change that fact. However, I would like to tell my story before my time on earth is up. If I never tell it, then no one would ever know the truth. In addition, it is best to expose the underhanded tactics that the organized stalkers use so that other innocent people who are targets of organized stalking can better understand their situation and cope with it. By doing this, I feel that at least my existence on earth would have at least served a beneficial purpose.

## **Customer Reviews**

In this book the author succinctly and effectively takes the reader through his organized stalking experience. He gives a credible account of what has happened to him that anybody, TI or not, can understand and follow. I try to read all of the books by other TI's. Many, unfortunately, due no doubt to the insurmountable stress we deal with, tend to ramble and not lay out the material in such an organized fashion. That does not make them unworthy of reading. This book, however, I would have no problem recommending to friends or family members so that they can have further

understanding of what the TI experiences on a day to day basis. All of that said, my heart goes out to this young man. I wish there were something I could do to help. My targeting began mid-life. To lose one's youth to this evil is a tragedy. Thank you, Edward, for having the courage to share your story. The more of us who go public with our stories, the sooner all of us will be believed and this silent holocaust put to death. It will happen.
